## RSG NEWSLETTER 02-2017

Bietigheim-Bissingen, December 2017

### **RSG Automation Technics Sets a Historic Milestone and is Honored as Growth Champion 2018**

Dear customers, business partners, and friends of RSG,

as our loyal customers, you have made us a special Christmas present this year.

You already know that RSG has global leadership in the domain of special installations **for fully or semi-automated processing of narrow band textiles.**

This was now confirmed convincingly:

The recognized and renown business journal "FOCUS Business" determined the top 500 from a database of 3.6 million German companies, which were able to establish the highest increase in sales in the years 2013 to 2016.

**With an increase in sales of 30%, RSG is on first place among German textile machine manufacturers.**

Among all German machine and facility manufacturers, RSG is on an outstanding 15th place, and is on place 378 Germany-wide. For this RSG was now awarded to be "growth champion 2018" by FOCUS Business.

Therefore, we would like to kindly thank you for your long years of faith and trust in us, and your support.

We wish you and your family a merry Christmas and afterwards a good start into a healthy and successful New Year 2018.

The entire team of RSG is looking forward to a continued trustful cooperation.

Dr. Andreas Ecker

Maik Eisenhardt
